

## JoAnn Browning

### Publications

- Sozen, M. A., and Browning, J. P. "Tools to Evaluate Earthquake-Vulnerability of Reinforced Concrete Building Structures," *V. Yerlici - Engineering and Education: A Volume Honoring Professor Doctor Vedat Yerlici*, Istanbul, Turkey, May 1997.
- Browning, J. "Limiting Drift Response of Reinforced Concrete Building Structures Subjected to Strong Ground Motion," *Proceedings of International Workshop on Seismic Isolation, Energy Dissipation, and Control of Structures*, sponsored by NSF, Chinese Ministry of Construction, and Guangzhou Municipal People's Government, Guangzhou, China, May 6-8, 1999.
- Browning, J. "Implications of a Proportioning Method for Earthquake-Resistant RC Frames Subjected to Strong Ground Motion," *Proceedings 12<sup>th</sup> World Conference on Earthquake Engineering*, Auckland, New Zealand, Jan. 1- Feb. 4, 2000.
- Browning, J., Li, R., Lynn, A., and Moehle, J. P. "Performance Assessment for a Reinforced Concrete Frame Building," *Earthquake Spectra*, vol. 16, no. 3, August 2000, pp. 541-555.
- Browning, J., Matamoros, A., Marsh, J. "Evaluation of Simple Methods for Performance Assessment of Buildings Subjected to Earthquakes," *International Conference on Advances in Structural Dynamics*, Hong Kong 13-15 December, 2000.
- Browning, J. "Proportioning of Earthquake-Resistant RC Building Structures," *ASCE Journal of Structural Engineering*, vol. 127, no.2, pp. 145-151, February, 2001.
- Browning, J. "Proportioning Earthquake-Resistant RC Frames in Central/Eastern U.S.," *Earthquake Engineering and Structural Dynamics*, vol. 31, 2002, p. 1267-1280.
- Marsh, J., and Browning, J. "Correlating Dynamic and Static Nonlinear Analysis of Frames," *7<sup>th</sup> National Conference on Earthquake Engineering*, July 21-25, 2002, Boston, MA.
- ACI Committee 408 (Contributing Author and Editorial Chair). "Bond and Development of Straight Reinforcing Bars in Tension," to be published in *ACI Manual of Concrete Practice*, Approved.
- Kuntz, G., and Browning, J. "Reduction of Column Yielding during Earthquakes for RC Frames," *ACI Structural Journal*, vol. 100, no. 5, pp. 573-580, Sept.-Oct. 2003.
- Matamoros, A., Browning, J., and Luft, M. "Evaluation of Simple Methods for Estimating Drift of Reinforced Concrete Buildings Subjected to Earthquakes," *Earthquake Spectra*, Vol. 19, No. 4, 2003, pp. 839 - 862.
- Darwin, D., McCabe, S. L., Browning, J., Matamoros, A., and Zuo. J. "Evaluation of Development Length Design Expressions," *Proceedings: Bond in Concrete - From Research to Standards*, eds. G. L. Balázs, P. J. M. Bartos, J. Cairns, A. Borosnyói, Budapest, 2002, pp. 747-754.

- Darwin, D., Browning, J. P., Balma, J., Ji, J., Gong, L., Nguyen, T. V., and Locke, C. E. “Corrosion-Resistant Reinforcing Steels,” *Proceedings*, National Bridge Conference, Nashville, 2002, 17 pp.
- Matamoros, A., Garcia, L. E., Browning, J., and Lepage, A. “The Flat-Rate Design Method for Low and Medium-Rise Reinforced Concrete Structures,” *ACI Structural Journal*.vol. 101, no. 4, July-August 2004, pp. 435 – 446.
- Brachmann, I., J. Browning, and A. Matmaoros. “Drift Limits for Reinforced Concrete Columns,” Accepted for publication in *ACI Structural Journal*.
